

Camping

By: Michael McLellan (Campsite Manager)

Camping permits are issued at the checkpoints upon entrance to the North Maine Woods area. Camping is allowed at designated, marked camping areas for a two week maximum time limit per campsite.

There are two types of campsites available for use:

Authorized Campsites: These campsites are marked on the NMW map and are listed here for reference. While all campsites are rustic, there are steel fire rings, cedar picnic tables and toilets at authorized campsite locations. Fires may be carefully built in the steel fire rings, and many of the campsites have picnic table shelters. A Maine Forest Service fire permit is not required.

Fire Permit Campsites: These are locations where overnight camping is allowed but where building campfires requires a Maine Forest Service fire permit. The locations of designated fire permit campsites are shown on the NMW map. These campsites have none of the amenities found at authorized campsites. Although some fire permit campsites are not as attractive as authorized campsites, fall hunters prefer sheltered locations rather than windswept lake shore campsites.

Please carry your trash out. Do not leave trash at your campsite or alongside roads and waters.
